

Oppsummering og veien  
videre

# Et kompetent og ambisiøst team -

- Helsetjenester
- Næringsliv
- Forskere
- Brukere

# Våre hovedspørsmål utgjør sentrale faser i innovasjonsprosessen

# Mange muligheter- og flere hvis vi vil....

Case*	WP 1 effektivitet	WP 2 Kost nytte	WP 3 Tidlig metodevurdering	Implementering
Mamma mia/CT		X		
Emeistring/CW		x		x
Unge med angst/YW	X			x
Rygg/YW	X			
kreft	X			
Mage tarm/CW				x

*\*I tillegg kommer mer overordnede mål*

*Dette er kun det som er spesifisert i søknaden- altså startpunktet vårt*

# Prioriteringer vår 2021

- Invitasjon fra WP 3!
- Få på plass organisasjon og styring
- Kartlegge utfallsmål på tvers av alle partnere
- Kartlegge forventninger
- Konkrete planer per subprosjekt
- Å møtes 😊
- ??

# WP4 Implementation

"I THINK YOU SHOULD BE MORE EXPLICIT HERE IN STEP TWO."

# Outline for today

- Short summary of WP4 background and goals
- Christiaan Vis on IMA and Itfits-toolkit
- Plans and goals WP4 year 2021

- Discussion with partners
  - The implementation object (e.g. MageTarmskolen, eMeistring)
  - The implementation sites (e.g. eM HUH- eM Vestfold – eM Niderås, BM)
  - Current and future implementation efforts
  - How we (researchers) can help guide implementation and evaluation

# WP4 Main goal

**To enhance the efficiency of the implementation of digital interventions, by gaining knowledge on tailored implementation strategies and their outcome**

Also,

- To support evidence-based scale-up of digital interventions in healthcare settings
- To promote systematic uptake of research findings and other evidence-based practices
- To improve the quality and effectiveness of care

\*Conceptualization of tailored implementation is operationalized in an online platform, the ItFits-toolkit

# Proposed work of WP4 in 2021

- T4.1 To describe for each different site in detail:
- the implementation site and implementation object
  - their position in health care system
  - the patient flow and entry way into the digital service
  - involved persons and organisations in delivery of the service
  - the technological solution
  - *Communalities and differences*
- T4.2 To describe the current (IAU) implementation plans, goals and measures of success for each different site in detail
- *Communalities and differences*
- T4.3 To translate the questionnaires
- T4.4 To adapt the ItFits-toolkit to local context
- T4.5 To develop the study protocol

# Each partner

1. Why partner in the project?
2. Implementation object (intervention)
  - For whom/for what/and why
  - Way of provision (online/FTF, (un)guided)
  - Developmental or implementation stage
3. Current and future implementation efforts/plans
  - (e.g. training of staff, promotion, etc)
4. Implementation goals
  - (e.g. increase reach, increase efficiency, reduce costs)
5. Desired outcome
  - (e.g. higher N satisfied, higher N treated, etc)

# Deliverables for 2021

- D4.1 Detailed description of implementation sites and services
- D4.2 Detailed description of implementation plans and goals
- D4.3 Translated questionnaires
- D4.4 Adapted ItFits-toolkit
- D4.5 Common set of methods for stepped-wedge study protocol across implementation sites
